

EMUC Symposium on Genitourinary Pathology and Molecular Diagnostics (ESUP)

Emerging Biomarkers in Genitourinary Tumors

Barcelona, Spain, 16 November 2017

14.30 – 14.40 Welcome and introduction

Chairs: Urologist - Alberto Briganti, Milan (IT)
Pathologist - Rodolfo Montironi, Ancona (IT)
Pathologist - Antonio Lopez-Beltran, Lisbon (PT)
Urologist - Hein Van Poppel, Leuven (BE)

14.40 – 14.50 Biomarker, molecular and technological advances in genitourinary pathology

Pathologist - Rodolfo Montironi, Ancona (IT)
Urologist - Hein Van Poppel, Leuven (BE)

14.50 – 15.20 Urologic pathology: From pure morphology to predictive medicine

Urological Researcher - Kerstin Junker, Homburg (DE)

15.20 – 15.50 Circulating tumor cells and biomarkers in genitourinary tumors

Pathologist – Yves Allory, Paris (FR)

15.50 – 16.20 Urinary biomarkers for prostate cancer

Pathologist - Michelangelo Fiorentino, Bologna (IT)

16.20 – 16.50 MiRNA in genitourinary tumors

Pathologist - Antonio Lopez-Beltran, Lisbon (PT)

16.50 – 17.20 PDL1 testing and immunotherapy for genitourinary organs

Pathologist – Georges Netto, Alabama (US)

17.20 – 17.30 Take home message: Emerging biomarkers in genitourinary tumors

Pathologist - Antonio Lopez-Beltran, Lisbon (PT)
Urologist - Alberto Briganti, Milan (IT)

17.30 Close
